水晶3D激光内雕机系列

3D Crystal Subsurface Laser Engrave Series

主要参数 Parameters

Model/型号	6KB	5KB	4KB	MiNi	4KB
Engrave Area/雕刻幅面	300*400*150mm	400*400*150mm	450*450*150mm	100*100*100mm	200*200*120mm
Cooling Method 制冷方式	Air Cooling/风冷				
Laser pumping/激光泵浦	Semicinductor/半导体二极管				
Power supply mode 供电方式	AC220V/110V 50-60HZ				
Wavelength/波长	532nm				
Processing Materials 加工材料	Crystal, Glass, Acrylic /水晶 玻璃 亚克力				

产品特点 Product introduction

3D Crystal subsurface engraving is a technology which can use certain wavelength laser into the glass or crystal and other transparency of the relative density of the material inside, so that its internal specific parts of the formation of a small burst of graphics and make the plane or three-dimensional pattern shown in the crystal, glass inside. Mainly used for customized portrait gifts, education, teaching, industrial products, anti-counterfeiting, etc.

水晶内雕是将一定波长的激光打入玻璃或者水晶等透明度相对密度材料的内部，令其内部的特定部位发生细微的爆裂形成的图形，将平面或立体的图案展现在水晶、玻璃内部的一种技术，主要用于人像礼品定制教育教学工业产品防伪等

大幅面玻璃激光内雕机系列

Large Size Glass Laser Engraving Machine Series

主要参数 Parameters

Model/型号	HSGP-1280	HSGP-2513	HSGP-3020	HSGP-4025
Processing format 加工幅面	1200*800*150mm	1300*2500*130mm	2000*3000*130mm	2500*4000*130mm
Wavelength/波长	532nm			
Cooling method 冷却方式	Air Cooling/风冷			
Power supply mode 供电方式	AC220V/110V 50-60HZ			

applications/适用领域
Widely used in advertising, building partition decoration, furniture, daily necessities and art photo viewing, industrial glass production design, etc.
广泛用于广告 建筑隔断装饰 家具生活用品及艺术写真观赏, 工业玻璃生产设计等

产品特点 Product introduction

- Available personalization image
- Excellent engraving effect beautiful image
- Suitable for mass production
- 个性化, 雕刻幅面可定制
- 雕刻效果精美 图案细腻
- 适合大批量加工

球型激光内雕机系列

3D Crystal Sphere Subsurface Laser Engraving Machine series

customizable
(可定制)

主要参数 Parameters

Model/型号	HSGP-BALL
Flat format/平面幅面	320*450mm(customizable/可定制) / 500*700mm(customizable/可定制)
Processing format 加工幅面	300mm
Wavelength/波长	≥532nm
Power supply/电源	AC220V/110V 50-60HZ
Applicable materials 适用材料	Glass/玻璃 Crystal/水晶 Alex/亚克力

产品特点 Product introduction

Engrave flat or three-dimensional patterns inside transparent materials such as crystal and glass. Can engrave 2D/3D portrait, name hand and foot prints, trophies and other personalized gifts and souvenirs inside the spherical crystal, and can also mass produce 2D/3D animals, plants, buildings, cars, boats, airplanes and other model products and 3D scene display.

在水晶、玻璃等透明材料内雕刻平面或三维立体图案。可在球形水晶内部雕刻2D/3D人像、奖杯等个性化礼品纪念品，也可批量生产2D/3D动物、植物、建筑、车、船、飞机等模型产品和3D场景展示。

激光玻璃切割系列 Glass Laser Cutting Series

主要参数Parameters

Model/型号	HSGP-12L	HSGP-15L	HSGP-19L
Processing format 加工幅面	Single platform/单平台		Double platform/双平台
Wavelength/波长	1064nm		
Laser/激光器	Infrared laser/红外激光		
Cooling method 冷却方式	Water cooling/水冷		
Voltage/电压	AC380V		
Applicable materials 适用材料	Glass/玻璃		Crystal/水晶

产品特点 Product introduction

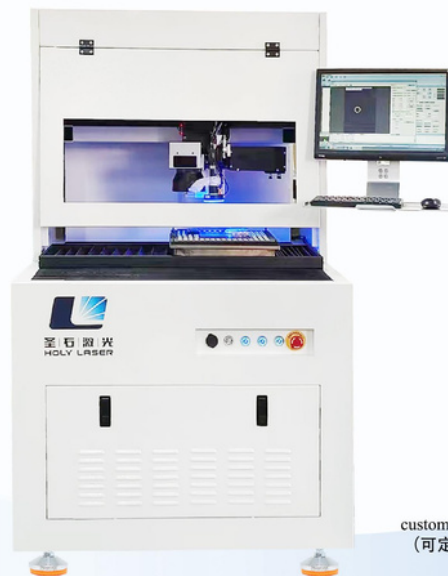

Convenient, high efficiency, better results, simple and easy to operate, flexible and customizable, to traditional waterjet and waterjet cutting
方便快捷, 效率高, 效果更好, 简单易操作, 灵活可定制性, 更强 替代传统水刀和水切割

激光钻孔系列 Laser drilling series

customizable
(可定制)

主要参数 Parameters

Model/型号	HSGP-532NW	HSGP-1064L
Wavelength/波长	532nm	1064nm
Processing format 加工幅面	300*300mm	500*500mm(customizable/可定制)
Cooling method/冷却方式	Water cooling/水冷	
Voltage/电压	AC220V/110V 50-60HZ	
Laser/激光	Green laser/绿光	Infrared laser/红外

产品特点 Product features

- 1.Contactless processing, high product excellence rate.
 - 2.High drilling density, high precision Fully enclosed constant temperature design, high stability
 - 3.Integrated design No need to adjust the optical path. Easy to integrate
 - 4.It can process shaped holes Can use lighter and thinner materials
- 1.无接触式加工，良率高。
- 2.钻孔密度大，精度高 全封闭恒温设计，稳定性高
- 3.一体式设计，无需进行光路调整，便于集成
- 4.可以加工异形孔，可以使用更轻更薄的材料

CONTACT US

紫外激光雕刻/喷砂系列

UV laser engraving/sandblasting machine series

customizable
(可定制)

主要参数 Parameters

Product name/产品名称	HSGP-5W/10W/15W	Wavelength/波长	355nm
Processing format /加工幅面	150*150mm 300*400mm 400*900mm (customizable/可定制)		
Cooling method/冷却方式	Water Cooling/水冷	Voltage/电压	AC220V/110V 50-60HZ
Processing Materials /加工材料	Crystal/水晶 Glass/玻璃 Metal/金属 Non-metallic非金属		

产品特点 Product introduction

1. UV laser beam quality is good, focused spot is smaller, can realize ultra-fine marking.
 2. UV laser can work on most material surfaces, even for special materials, and it has a wider range of applications.
 3. UV laser is a cold light source processing, heat-affected area is very small, will not produce thermal effects, so it
 4. UV laser, no consumables, non-polluting and non-toxic, can mark things, marking speed and high efficiency.
 5. Stable performance of the whole machine, low power consumption.
1. 光束质量好, 聚焦光斑更小, 能实现超精细标记
 2. 大多数材料都能吸收紫外激光 特殊材料UV PC能打标, 因而应用范围更广泛
 3. 属冷光源加工, 热影响区域极小, 不会产生热效应, 无材料烧焦问题
 4. 无耗材 无污染无毒 标记速度快 效率高
 5. 整机性能稳定, 功耗低

汽车玻璃除膜产线

Car Glass Laser Film Removal Line

主要参数Parameters

Product name/产品名称	Car Glass Laser Film Removal Line/汽车镀膜玻璃除膜产线
model/型号	HSGP-2520
Light source/光源	Green picosecond laser/Infrared nanosecond laser/绿光皮秒/红外纳秒 (可控制)
Processed Objects/加工对象	LOW-E glass /single silver glass/double silver glass LOW单银 双银等玻璃
Loading/unloading method 上/下料方式	Support/支持
application/应用	Used in automotive glass/cold chain glass/solar PV glass, etc./应用汽车玻璃 冷链玻璃 光伏玻璃等

产品特点Product features

- Adopt imported linear motor and servo motor
- Adopt galvanometer scanning technology, fast scanning speed and high processing efficiency.
- Automatic loading and unloading system
- Scanning path automation
- 采用进口直线电机和伺服电机
- 采用振镜扫描技术，扫描速度快，加工效率高
- 自动上下料系统 操作方便，自动化能力高
- 扫描路径自动化

光纤/紫外/二氧化碳打标系列

Fiber/UV/CO2 laser marking machine series

fiber laser marking machine
光纤打标机 (可定制)

uv laser marking machine
紫外打标机 (可定制)

Portable marking machine
便携式打标机 (可定制)

Hand-held marker
手持打标机 (可定制)

Carbon dioxide laser marking machine
standard version
二氧化碳打标机标准版 (可定制)

Carbon dioxide laser marking machine
dynamic version
二氧化碳打标机 (动态版)

产品特点 Product introduction

Widely used in electronics separation components, integrated circuits (IO) electrical circuits, mobile communications, precision instruments, etal and non-metallic materials marking glasses, watches, calculators keyboard, jewelry, a variety of m

广泛应用于电子学分离元器件 集成电路 (IO) 电工电路 手机通讯 精密器械 眼镜钟表 计算器键盘 首饰饰品 各种金属与非金属材料打标
