

## Interactive Board

 HD Large Screen, clear eye protection

 Free writing , interactive teaching

 Fun experiments and rich resources

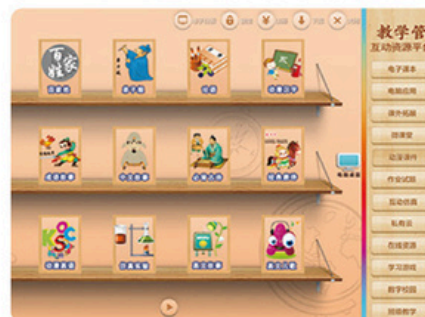

**CONTACT US**

Multimagotrade.com  
+40-758-667-671

### Smart Whiteboard

Supports touch screen writing, annotation, painting, and gesture erasure, making teaching board writing smooth and convenient

### Enrich teaching resources

Built in multiple official courseware and textbooks, virtual fun experiments are integrated with education and entertainment.

### Real time wireless screen transmission

Supporting wireless screen transmission across multiple devices saves time and effort.

### Remote video live teaching

Built in remote video software, initiate screen sharing, and achieve remote live teaching.

#### Product parameters

| Model                 | CW-BGCM-65                                                          | CW-BGCM-75                    | CW-BGCM-86                  |

# Smart Nano Blackboard

-  Multi mode switching, flexible and multifunctional
-  Free writing, multi touch interactive teaching
-  Clear display, in eye protection and fatigue prevention

**CONTACT US**

Multimagotrade.com  
+40-758-667-671

### Multi mode flexible application

Multi mode blackboard flexible combination, achieving massive content writing on the blackboard

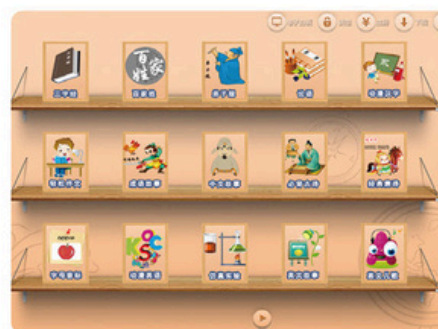

### Smooth multi touch writing

Adopting professional touch technology to support 20 point touch. Satisfy simultaneous touch operation by multiple people.

### Clear display of 0 fitting technology

Adopting glass writing panel and penetrating zero bonding technology

### Built in teaching courseware

Built in multiple official courseware and textbooks, virtual fun experiments, achieving clear display of content.

### Push pull design

Multiple screen blackboard push-pull combinations to meet the needs of different teaching scenarios.

### Intelligent whiteboard gesture operation

High precision touch technology enables multi-point touch and hand control function.

### Wireless screen projection

Multi terminal wireless screen mirroring, supporting real-time sharing of four images

### Scan and Save

Enable local and cloud collaboration through mobile phone scanning or email. Store and easily save and share teaching notes.

### Diversified display

Support displaying various class teaching information, with multifunctional and convenient operation.

### Face brushing system

Equipped with a built-in high-definition camera and advanced facial recognition technology, it can quickly match information.

### Intelligent data statistics

Real time transmission of student information to various terminals, with real-time synchronization and continuous follow-up of information.

### Interactive multi-touch

Supports various touchscreen interactive gameplay options such as electronic course schedules and class style displays.
